Join us on the 2022 Zimtu ROADTRIP!

For years, Zimtu has established itself in Europe as a trusted source for European investments. We work hard to develop relationships in European countries because we know the value it has on our business and the companies we work with.

The Zimtu Road Trip is an essential piece of that strategy and ensures relationships are built and maintained with investors across the world. Every year, Zimtu fills a large bus with company representatives in the mining, tech, and energy sectors and drives across Europe to meet with investors and partners.

We organize investor events in Zurich, Geneva & Frankfurt with hundreds of European investors and the trip finished in Munich with the International Precious Metals & Commodities Show.
