Halcones Reports up to 17.2 g/t Gold in Outcrop Samples From New Target Area at Carachapampa Project in Chile

According to Vern Arseneau, COO of Halcones, "The initial field results are highly encouraging. Given the limited time the crews had in the field in the late winter, the discovery of the previously unmapped volcanic dome and associated vuggy silica alteration hosting significant gold mineralization over what appears to be an extensive area is an excellent outcome..."
